

# Edge Early Learning Strathpine – Bells Pocket Road

“Parents are often amazed at what their child has tried sometimes we even take photos to prove it!”

Kate, Centre Director, Edge Early Learning Strathpine

## RECIPE FOR SUCCESS

Edge Strathpine cares for children from 6 weeks to school age, including many with allergies and cultural requirements. They partner with The Wellbeing Food Co to deliver fresh, balanced meals (morning team, afternoon tea and lunch) for every child. Special dietary meals arrive clearly labelled with the child's name, day and ingredients: supporting the centre's strict allergy protocols and giving educators confidence, even when managing anaphylaxis

## MAKING MEALTIMES EASY

Each morning, the centre's kitchenhand receives the delivery, then portions and heats the meals for each room. It's a smooth and familiar process that fits into the daily rhythm. With the Wellbeing Food Co team just a phone call away, any issues are sorted reliably and without stress.

## HEALTHY HUMANS AND HAPPY FAMILIES

No packed lunches. No 'food from home' comparisons. No risk of unintended contamination. Every child receives

## SNAPSHOT

- Centre capacity: 122 children across 7 rooms.
- Special dietary needs: Around 25% of current children.
- With The Wellbeing Food Co: Over 5 years.

a nutritious and consistent meal, and families get daily updates on what their child ate and how much often met with a pleasant surprise! Firm favourites like pasta, muffins and scrolls make mealtimes a treat, even when packed with veggies. And when menus change, educators often join the children to have a sample, encouraging willing, curious bites.

## FOOD THAT DOES MORE

Country flags displayed beside each meal on the menu invite chats about geography, culture and food traditions. Even the smell of warming baked goods adds to the experience: creating a welcoming atmosphere that's noticed by families and loved by the team.

”

With so many different dietary needs from allergies to halal and no red meat the clear, reliable system is really reassuring for us and parents.

”

I can't imagine having to cater ourselves even just the thinking involved, let alone the cooking. It's just part of our routine now.

”

Everyone's so helpful, from the delivery drivers to the team on the phone. They always find a way to solve any issues.
